- 2
- 3
- 4
- 5

Give an overview of the London congestion charge system

Give facts relating to the impact of the London congestion charge scheme

Give five ways the UK is addressing the impact on the ecosystems

- 1
- 2
- 3
- 4
- 5

	Advantages	Disadvantages
Green field sites		
Brownfield sites		

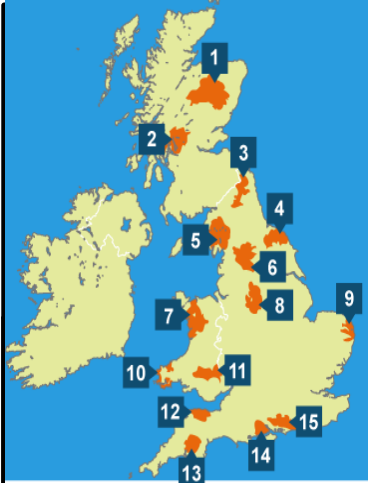

What are the main patterns for UK migration?

What are the main reasons for migration?

Views of migration

Businesses/national government

Local governments/individuals

# Uk Challenges

*Geog your memory!*

List five National Parks

- 1
- 2
- 3
- 4
- 5

The National Parks have a six point plan for sustainable development

- 1
- 2
- 3
- 4
- 5
- 6

River flood risk in the UK

Causes

- 1
- 2
- 3

Solutions

- 1
- 2

Somerset Levels  
(flood example)

Explain storm surges

How will global warming affect UK climate?

- 1
- 2
- 3
- 4

Responses to climate change

Local scale  
Individual

Schools

Councils

Groups

The Thames Barrier example

How will climate change impact the UK?

Floods

Water deficits

Eco systems

National scale - Government

Addressing coastal flood risk with hard engineering

Addressing coastal flood risk with soft engineering

International scale
